Across
2. Global warming activist and winner of the 2007 Nobel Peace Prize
4. A majority of greenhouse emissions comes from this gas
6. The UN's attempt to reduce emissions by 2012
7. Average increase in the Earth's temperature
9. Type of energy that uses the Earth's heat
11. Each hectare of this absorbs one ton of carbon dioxide annually
12. Type of light bulbs that minimize energy usage, also known as CFL
13. Reusable type of energy, such as solar, wind, hydropower, and geothermal, for example
14. One of the three R's that helps to minimize human environmental impact
15. The country with the greatest amount of emissions
16. Type of car that uses both gas and electricity (i.e. Toyota Prius)
17. Long-term change in weather pattern
18. Measures individual/household impact on the environment

Down
1. The largest and dirtiest source of energy
2. Title of the Academy Award winning documentary on global warming
3. U.S. government program that offers energy efficient appliances
5. In addition to human-related causes, these are also causes to global warming
7. Phenomenal event that keeps Earth warm
8. Short-term events that occur in the atmosphere
10. The greatest source of carbon dioxide emissions
